

It's the law! Divert food scraps from the trash.

2022

In Vermont, as of July 1, 2020, food scraps were banned from going to the landfill. So, what do we do with them?

- Compost them in the backyard, or
- Dump them into the transfer station's food scrap can, or
- Pay someone to pick them up curbside.

You can continue to throw meat, bones, and grease into the trash OR you can bring them to the transfer station where they will go to a commercial compost facility. Do **NOT** add meat and bones to your backyard composter—they will attract vermin.

SW/WCSWMD is offering Soil Saver backyard composters for the discounted price of \$65.00. Just fill out the form below and mail it in with a check.

- 10-year guarantee
- 28" wide x 28" deep x 32" high
- 2 slide-up doors for easy removal of compost
- Self-watering lid feature
